

June

21st This has been a right nice day our wheat is not all cut yet. Jimmie staid home to help, the rest of the little ones went to school. Charlie came home feeling bad, he laid on the lounge and was taken so bad that we had to send for Dr Cooper. He had a very high fever but he gave him medicine to take untill after 12 o'clock tonight. All are in bed asleep but me and I have been very sleepy. Charlie's fever is not so high as it was in the early part of the evening. We are having a hard thunder gust and rain tonight.

22nd This has been another changeable day, the sun shines awhile and then it rains we had a hard rain this afternoon, the Dr came to see Charlie but does not expect to cure any more, for he is much better, but has medicine to take. I hope he will soon be well, we had boiled cabbage for dinner today, Charlie wants to know when he can have some to eat. 23rd Pen is not quite done cutting wheat it rained so much today that they had to give up doing any more untill another day. Charlie is much better.
