

Dec 10<sup>th</sup>

We have had a rainy day it began some time last night and is still raining very fast, these is an old saying that the sun shines every Saturday but I have not seen it today although it cleared up about noon but began again as hard as ever before night, Ben went to Church Hill after dinner took Miss Nellie and Jimmie she staid and wanted to keep him but he would not stay.

Jimmie went over to Chesterton and took the butter for me, I done my baking this morning and had one of my strange feelings just before dinner have been lying down most of afternoon, I only had one spell I feel better tonight - the weather is very warm for Dec.
